

Provided by: **FIU** | Fleet Management

FIU Fleet Management has developed the Drive Smart Program for Students, Faculty, and Staff to help bring awareness to safety, sustainability and cost savings of transportation. The purpose of this group is to improve fleet and vehicle related Safety Management and Sustainability efforts and communicate to the FIU community the benefits of these target areas. The members of the committee include Environmental Health & Safety, Office of Sustainability, Parking and Transportation, FIU Police and Fleet Management. Through Drive Smart, synergies have been created benefiting University programs and initiatives, as well as, enhancing communication channels.

The program has been working on the following initiatives:

1. Idling Policy
2. Vehicle Operator Guide
3. Golf Cart Operator Guide
4. Electric Vehicle Battery Charging Station
5. Golf cart fueling reminder and safety decals
